1:00 – 2:00 pm - Tyre Repair at the Library!

Join a great, practical session on how to fix a puncture. Steve will start from the basics, and you can ask any questions you like, no such thing as a dumb question, it's all about learning! Things to bring if you have them:

- your own bike wheel if you have one, and especially good if you have a puncture already, (or you can pretend it's flat!) – no whole bikes please
- 2 tyre levers (or 2 desert spoons will do)
- a puncture repair kit (something like \$5 dollars from your bike shop)
- bike pump
- a rag for your hands.
