

Foster family needed for **Ben** – 16 years old

Could you provide quality care for Ben?

We are looking for a couple, or single, with experience supporting people with special needs, to provide Ben with quality care for the remainder of his teenage years.

Ben is a very happy young man who loves learning, loves making others happy and loves life in general. He would fit in really well with a family that enjoys sport – especially rugby!

With the help of his current foster parents, Ben has learnt what it means to be part of a healthy loving family. He is more than ready to fit, more permanently, into a family that will support him to reach his full potential.

It is important for Ben to remain at his school in the Hillmorton area, where he is settled, well supported and is making really positive progress.

With the right support and care Ben is fully capable of achieving and living an independent life.

If you are interested in foster care, and have experience working with people who have special needs, then we would love to hear from you.

You would be well supported, part of a team dedicated to supporting Ben reach his full potential.
