

## CREATING BIRDFEEDERS

In Homebase Ruru children have been exploring their passions. Isabelle loves birds and ran a workshop for others to join on making bird feeders. Isabelle was keen to get more birds into our school environment. She has certainly met her goal. We have had sparrows, chaffinches, swifts and blackbirds visiting the feeders which are hung up just outside our windows.

Everyone's a teacher,  
Everyone's a learner!
